POSITION PAPER

Committee: UNGA

Topic: Strengthening Global Actions and International Cooperation to Combat Climate Change

Country: Turkey

Delegate: Falak

1. Background:

The Republic of Türkiye believes that global peace, stability, and respect for sovereignty are essential foundations for any effective global action, including action to combat climate change. Without security and stability, no country can fully focus on sustainable development, climate cooperation, and protection of its people and borders.

Türkiye seeks to protect its borders. The operations on the borders of PKK and Syria are for the protection of its own people.

Türkiye highlights the following ongoing issues that affect regional peace and international cooperation:

a) Israel and Türkiye - Gaza War:*

Due to the Gaza war, relations between Türkiye and Israel have become very bad. Türkiye calls for an end to this conflict.

b) Aegean Sea - Oil / Gas Dispute:*

The dispute over oil / gas in the Aegean Sea is a 50-year-old issue between the two sides. Türkiye calls for a peaceful and just resolution.

c) PKK / Kurdish Group - Internal Conflict:*

There is a conflict with the PKK / Kurdish group. The PKK is an armed group that wants a separate country inside Türkiye. This enmity has continued for 40 years.

d) Syria and US:*

Türkiye wants to eliminate Kurdish fighters in Syria, but the US supports those same fighters. This difference creates tension and harms regional stability

Solution:*

Türkiye believes that strengthening global action to combat climate change is only possible through international cooperation based on peace, mutual respect, and justice.

Therefore, Türkiye proposes:

1. All Member States should respect each other's sovereignty and borders,

2. Ongoing conflicts should be resolved through dialogue and diplomacy, not war,

3. A joint international platform should be created to promote both peace and climate cooperation, so that countries facing security challenges can also fully participate in climate action.

Thank you.
