UNGA

Amendments to Draft Resolutions

IBAD-MUN 2026 | 2:15–2:35 PM | 20 minutes | Climate action & cooperation

01 · Purpose of the Amendment Session

An amendment is a proposed change to a draft resolution. Delegates may propose amendments to:

- Add a new clause.
- Modify an existing clause.
- Remove a clause or part of a clause.
- Clarify the wording of a proposal.
- Improve the practicality of a proposed solution.

The purpose is to improve draft resolutions before they proceed to voting.

02 · How the CD Will Start

First, ensure all delegates are seated and the relevant draft resolutions are available.

> **CD**
>
> “Honourable delegates,
>
> We will now proceed to the amendment session.
>
> During our previous discussions, delegates presented and discussed draft resolutions addressing the challenges of climate change.
>
> This session provides delegates with an opportunity to propose changes to the submitted draft resolutions.
>
> An amendment may add, modify, or remove a clause, provided that the proposed change is relevant to the agenda and follows the committee's Rules of Procedure.
>
> Delegates are requested to carefully examine the draft resolutions and ensure that their proposed amendments are clear, constructive, and practical.

> The amendment session will last for 20 minutes.
>
> The floor is now open for amendments."

03 · How a Delegate Proposes an Amendment

When a delegate wishes to propose an amendment, they should follow the procedure established by the conference. If written submissions are permitted, the delegate should provide:

- Draft resolution number.
- Clause number.
- Type of amendment.
- Original wording.
- Proposed wording.
- Name of the proposing country.

Example · Modified clause

> **Original:** "Encourages countries to adopt renewable energy sources."
>
> **Proposed:** "Encourages countries, particularly developing nations, to adopt renewable energy sources through financial assistance and technology transfer."

04 · How the CD Will Handle an Amendment

Step 1 — Receive

> CD
>
> "The Dais acknowledges the submission of an amendment by the delegate of **[COUNTRY]**."

Step 2 — Check

The ACD should check: which draft resolution is being amended; which clause is affected; whether wording is clear and relevant; and whether the required submission format has been followed.

Step 3 — Announce

Once eligible for consideration under the Rules of Procedure:

> CD
>
> "The Dais has received an amendment concerning Clause **[NUMBER]** of Draft Resolution **[NUMBER]**.
>
> The proposed amendment has been recorded and will be considered according to the committee's amendment procedure."

Step 4 — Allow discussion

If the Rules of Procedure permit discussion:

CD

“The Chair invites the proposing delegate to briefly explain the purpose of this amendment.”

After the explanation: “Thank you, delegate. The Chair will now proceed according to the applicable amendment procedure.”

05 · Types of Amendments

Type	Meaning	Example
Add	Introduces a new clause	Add a clause supporting renewable energy funding
Modify	Changes existing wording	Add financial assistance to an existing clause
Strike	Removes a clause or wording	Remove an impractical proposal

06 · Friendly & Unfriendly Amendments

The procedure for friendly and unfriendly amendments depends on your conference's Rules of Procedure.

Friendly amendment: An amendment accepted by the sponsors under a procedure that allows it to be incorporated without a separate vote.

Unfriendly amendment: An amendment not accepted by the sponsors and therefore considered through the committee's formal amendment and voting procedure, if permitted.

Important: Do not automatically declare an amendment friendly or unfriendly without following your conference's rules.

Recording & Closing the Session

07 · If a Delegate Asks a Question

If confused about the procedure:

> **CD**
>
> "Delegate, the amendment must clearly identify the draft resolution and the clause you wish to change. Please follow the submission requirements established by the Dais."

If an amendment is irrelevant:

> **CD**
>
> "The Chair requests the delegate to ensure that the proposed amendment remains relevant to the agenda and the draft resolution under consideration."

If two delegates disagree:

> **CD**
>
> "The Chair reminds all delegates that disagreement should remain diplomatic and that all proposals must be considered through the established committee procedure."

08 · ACD Amendment Record

No.	Draft Resolution	Clause	Type	Proposing Country	Status
1	DR-1	Clause 2	Add / Modify / Strike		
2	DR-1	Clause 4	Add / Modify / Strike		
3	DR-2	Clause 1	Add / Modify / Strike		
4	DR-2	Clause 3	Add / Modify / Strike		

The ACD should also record submission time, original and proposed wording, sponsor response if relevant, acceptance for consideration, adoption or rejection if voted upon, and procedural issues.

09 · How to End the Amendment Session

When the allotted time is nearly complete:

> **CD**

> “Honourable delegates,
>
> The allotted time for the amendment session has now concluded.
>
> The Chair thanks all delegates who submitted constructive amendments and contributed towards improving the draft resolutions.
>
> The amendments will be recorded and processed according to the committee's Rules of Procedure.
>
> We will now proceed towards the voting procedure, where the committee will consider the draft resolutions and any outstanding amendments in the appropriate order.
>
> Thank you, delegates.”

10 · Quick Reference — CD Phrases

Situation	What to say
Starting amendments	“We will now proceed to the amendment session.”
Inviting amendments	“The floor is now open for amendments.”
Acknowledging submission	“The Dais acknowledges the submission.”
Identifying a clause	“Which clause of the draft resolution is being amended?”
Requesting explanation	“Please briefly explain the purpose of your amendment.”
Asking for relevance	“Please ensure that the amendment remains relevant to the agenda.”
Ending session	“The allotted time for amendments has concluded.”

11 · Important Reminders for the CD

1. Remain neutral throughout the amendment process.
2. Never accept or reject an amendment based on your personal opinion.
3. Ensure every amendment identifies the correct draft resolution and clause.
4. Give delegates equal procedural treatment.
5. Do not confuse amendments with entirely new draft resolutions.
6. Do not assume all amendments require a separate vote.
7. Follow the official rules for friendly and unfriendly amendments.
8. Keep an accurate record of all proposed changes.
9. Coordinate with the ACD.
10. Do not begin voting until the amendment procedure has been completed as required by the Rules of Procedure.
